

PROFESSIONAL DEVELOPMENT

The University Center addresses the workforce development needs of Lake County in a variety of ways. Our award-winning Grayslake facility includes a conference service operation that enables local businesses and organizations to conduct meetings and training sessions in a comfortable and convenient off-site location. Our advanced technology allows business and industry multiple options for extending the reach of their sessions by linking to other sites or capturing their content for later on-demand viewing. Our Educators' Center of

Lake County addresses the workforce development needs of one of the largest employers in the region—the 45 school districts of Lake County. The professional development programs described on the pages that follow are provided by our member institutions. We also strive to identify other partners to bring professional training to the region. For more information about professional development options, contact Joe Kane, Director of IT & Business Development at (847) 665-4005 or jkane@ucenter.org.

PROFESSIONAL DEVELOPMENT CERTIFICATES

ONLINE

The Management Information Systems Department of the University of Illinois at Springfield has developed a pair of online certificates. Individuals may work on either certificate part time without being formally enrolled in a degree program, or may complete it as part of the Master of Science degree in Management Information Systems (See page 15).

ENTRANCE AND COURSE REQUIREMENTS

Students must hold a baccalaureate degree from an accredited institution and meet campus requirements for admission to graduate study. Candidates for either certificate will be expected to complete course requirements with a grade of B or better.

CERTIFICATE IN BUSINESS PROCESS MANAGEMENT

The Certificate in Business Process Management provides information systems practitioners with the fundamental knowledge needed to be able to successfully analyze, define, and design organizational processes and to effectively apply information technology to these processes.

REQUIRED COURSES:

*MIS 513	Management Information Systems	3 Hrs
MIS 575	Technology Management and Organizational Transformation	3 Hrs
MIS 568	Enterprise Models	3 Hrs
	Total	9 Hrs

CERTIFICATE IN IT PROJECT MANAGEMENT

The Certificate in IT Project Management provides information systems practitioners with the fundamental knowledge needed to manage information technology projects.

REQUIRED COURSES:

*MIS 513	Management Information Systems	3 Hrs
MIS 552	Systems Analysis and Design	3 Hrs
MIS 573	Project Management	3 Hrs
	Total	9 Hrs

*If MIS 513 has been taken as part of another MIS graduate certificate, the student must substitute another UIS Management Information Systems course, not included as a required course in another certificate, in its place.
