The CCTL program is designed to increase the teaching effectiveness of community college faculty and build the instructional leadership of supervisory personnel. This curriculum is focused on the effective design and implementation of quality instruction, contemporary instructional technologies, and other instruction using innovations such as peer-based collaboration and active learning strategies.

Courses are highly interactive and provide participants with a foundation of instructional theories, skills, and practices to support existing professional development efforts in community colleges.

### TARGET AUDIENCE:

This curriculum is designed for community college faculty and instructional leaders who desire to expand their knowledge and skills in instructional strategies and methods. The curriculum is also appropriate for faculty supervisors who make decisions about classroom instruction.

### MASTER'S ADMISSION REQUIREMENTS:

- 3.0/4.0 GPA for last 60 hours of undergraduate work
- Application to the Graduate College
- Letters of reference
- Official transcripts

The certificate program does not require formal admission to the University. For complete admissions criteria and application procedures, visit our website at <http://education.illinois.edu/online/cctl>.
